

Nonlinear Elliptic and Parabolic Problems: A Special Tribute to the Work of Herbert Amann

Zürich, June 28–30, 2004

The meeting will take place at the University of Zurich. Besides Elliptic and Parabolic issues, the topics of the conference include Geometry, Free Boundary Problems, Fluid Mechanics, Calculus of Variations, Control and Modeling.

Invited Speakers

A. Ambrosetti (Pisa), G. Da Prato (Pisa)
I. Diaz (Madrid), Giga (Sapporo)
M. Lopez-Gomez (Madrid), G. Lumer (Mons)
L. Peletier (Leiden), S. Pohozaev (Moscow)
P. Quittner (Bratislava), P. Rabinowitz (Madison)
P. Souplet (Amiens), S. Zheng (Shanghai)

In addition to the main lectures parallel sessions of short communications will be organized. The deadline for submitting an abstract is May 1, 2004. A proceedings volume will be published.

Organizing Committee: M. Chipot (Zürich), J. Escher (Hannover)
